Download the latest drivers for your Audio 8 DJ to keep your Computer up-to-date.. Hi guys, I own the Audio 8 DJ hardware and when I went to the Serato website to download the driver for it, it says it is compatible with Windows 7, 8, 8.. Just hope and pray your system does not crash if CD's are your only back up That could end up being an awkward silence filled by the sound of cable scrambling and boos.. With more and more people using Ms Pinky, Deck a Dance and tools for, Phono inputs are a good thing to have around.. Would Serato DJ tell me my hardware isnt connected if I haven't activated the software (bought it) yet? Sketchup free solid tools plugin. [Itunes Download For Mac Os X 10.9.5](#)
